# SACHIN BADGUJAR
## Web developer

sachinbadgujar7777@gmail.com    ◆    Linkedin    ◆    Git Hub    ◆    +91 9322017280

## SUMMARY:

I'm a passionate and curious web developer who loves building websites and web apps using the MERN stack MongoDB, Express.js, React.js, and Node.js). I've worked on few projects to sharpen my skills and enjoy turning ideas into real, working websites.

---

## KEY ACHIEVEMENTS:

**Built 3+ full-stack projects**
using MERN stack (MongoDB, Express.js, React.js, Node.js), demonstrating end-to-end development skills.

**Deployed live projects**
using Vercel, Render, and GitHub, showcasing deployment knowledge and version control (Git).

**Strong understanding of REST APIs**
frontend-backend communication, and state management (React Hooks, Context API).

## SKILLS:

- **Frontend:** HTML5, CSS3, JavaScript, React.js, Next.js, Tailwind CSS, Bootstrap.
- **Backend:** Node.js, Express.js, RESTful APIs.
- **Databases:** MongoDB, MySQL
- **Version Control:** Git, GitHub
- **Deployment:** Vercel, Render, Netlify.
- **Responsive Design:** Mobile-first, Flexbox, CSS Grid.

## PROJECTS:

1) **Real-Time Chat Application**                         *Dec 2024 – Feb 2025*
   Built a real-time chat application during my graduation using the MERN stack. The app allows users to sign up, log in, and chat in real-time with others in a clean and responsive UI.
   Tech Stack: MongoDB, Express.js, React.js, Node.js, Socket.io          *Live demo*

2) **AI Interview Mocker**                                *Feb 2024 – Jun 2025*
   Integrated GenAI API to generate interview questions and simulate HR/technical interview conversations.
   Tech Stack: Next.js, React, Gemini API, Node js.                       *Live demo*

3) **AI Image Enhancer**                                  *Mar 2024 – May 2025*
   Built a web application that enhances and improves image quality using the PicWish AI API. Users can upload low-quality images and receive enhanced, clearer versions within seconds.
   Tech Stack: React, PicWish API, Node js.                               *Live demo*

4) **Droply – Cloud Storage SaaS Application**
   Droply is a modern cloud storage SaaS application that allows users to securely upload, store, and manage files online.

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, Postgres neon, JSON Web Token (JWT). *Live demo*

**EDUCATION:**

| Course | College/School | Pass out year | Percentage |
|---|---|---|---|
| Bachelor of Computer Applications | Pratap college, Amalner. | 2025 | 77.74 |
| HSC | M.S Mundada school | 2022 | 76.77 |
| SSC | M.S Mundada school | 2020 | 81.80 |

**LANGUAGES:**

- English
- Hindi
- Marathi

**HOBIES:**

- Watching movies / web series
- Travelling
